

Atlas Pricing and Tiers

Owner: Arjun Mehta, Head of Product · **Effective:** 21 July 2026 · **Audience:** Product, Engineering, Sales and Customer Success

This document is the reference list price sheet for Atlas and the Beacon add-on. All prices are in USD, per seat, per month, before taxes. Discounts and deal approvals are handled by the Sales team and are not covered here.

1. Tiers at a glance

Atlas is sold in three tiers. **Starter** is designed for small data teams getting started with observability, **Growth** for scaling data teams with several pipelines and warehouses, and **Enterprise** for organisations with strict security, compliance and support requirements.

A "seat" is a named user who can log in to the Atlas Web App. Viewers who only receive alerts through Slack or email do not need a seat.

2. List prices and SKUs

Tier	Billing	SKU	List price per seat per month	Seat limits
Starter	Monthly	ATL-STR-MONTHLY	\$29	3 to 20 seats
Starter	Annual	ATL-STR-ANNUAL	\$24	3 to 20 seats
Growth	Monthly	ATL-GRW-MONTHLY	\$59	minimum 5 seats
Growth	Annual	ATL-GRW-ANNUAL	\$49	minimum 5 seats
Enterprise	Annual only	ATL-ENT-ANNUAL	\$89	minimum 25 seats

Annual plans are invoiced upfront for 12 months. Monthly plans can be cancelled at the end of any billing month. Enterprise contracts are annual or multi-year only.

6. Trials

- A 14-day free trial of the Growth tier is available for new workspaces. The trial includes up to 10 seats and 50 million events.
- At the end of the trial the workspace converts to Starter monthly unless the customer chooses a plan; data beyond Starter limits is retained for 30 days to allow an upgrade.

7. Upgrades and downgrades

- Upgrades take effect immediately and are prorated.
- Downgrades take effect at the end of the current billing period. When moving to a lower tier, retention and monitor limits of the new tier apply from the downgrade date.

8. Changes in this version

- Enterprise list price changed from \$82 to \$89 per seat per month for new contracts signed from 21 July 2026, the general availability date of Atlas 5.0. Existing contracts keep their price until renewal.
- Beacon is now available on Growth (previously Enterprise only), starting with Atlas 5.0.
