

2026 Territory Plan (EMEA and North America)

Owner: Tom Lindqvist, VP Sales **Prepared with:** Revenue Operations **Effective:** 1 February 2026 – 31 January 2027

1. Principles

- Territories are assigned by the customer's headquarters country (account billing country in Salesforce), not by where the buyer sits.
- Named Enterprise accounts (more than 2,000 employees) are assigned to Enterprise AEs; all other accounts belong to the Commercial team of the territory.
- Existing customers stay with their current AE for expansion unless the account moves segment.
- Territory disputes are resolved by the regional Sales Director within 5 business days; if the directors disagree, Tom Lindqvist decides.

2. Regions and Sales Directors

Region	Territories (countries)	Sales Director
NA East	US East Coast states, Eastern Canada	Marcus Hale
NA West & Central	US West and Central states, Western Canada	Jenna Ortiz
EMEA North	UK & Ireland, Nordics (Sweden, Norway, Denmark, Finland, Iceland), Benelux	Ingrid Halvorsen
EMEA Central	DACH (Germany, Austria, Switzerland), Poland, Czechia	Felix Baumann
EMEA South	Portugal, Spain, France, Italy	Beatriz Lopes

The North America directors are based in Austin; Ingrid Halvorsen and Felix Baumann are based in Berlin, and Beatriz Lopes in Lisbon.

Accounts headquartered outside these countries are routed to RevOps for case-by-case assignment and are not part of any territory in 2026.

3. North America plan

Territory	Enterprise AEs	Commercial AEs	Named accounts	Focus verticals
NA East	6	5	140	Financial services, healthcare
NA West & Central	7	6	165	Technology, retail, media

Priorities for North America in 2026:

1. Displace legacy in-house data quality scripts at mid-market technology companies.
2. Grow Beacon attach on existing Atlas Enterprise customers through the "on-call in a week" campaign.
3. Build a healthcare reference base: at least three referenceable healthcare customers by Q3.

4. EMEA plan

Territory	Enterprise AEs	Commercial AEs	Named accounts	Focus verticals
EMEA North	4	4	110	Fintech, telecom, gaming
EMEA Central	5	4	120	Manufacturing, logistics, automotive
EMEA South	2	3	70	Retail, travel, public sector

Priorities for EMEA in 2026:

1. EMEA Central: lead with data residency (EU hosting in Frankfurt) and GDPR documentation; German-language order forms are available from Legal.
2. EMEA North: expand the Nordics fintech cluster through the partner program, with two Gold partners in Stockholm and Copenhagen.
3. EMEA South: grow the Lisbon-based Commercial team and run joint events with the Portuguese partner network.

5. Rules of engagement

- SDRs are pooled per region (NA and EMEA) and route meetings to the AE who owns the account.
- Inbound leads from countries without a named AE go to the Commercial round-robin of the region.
- Partner-sourced deals are registered in the Salesforce partner portal and stay with the territory AE; the partner is compensated as defined in the Partner Program.
- An AE may not work an account in another territory without written approval from both Sales Directors.

6. Review cadence

Territory coverage and named-account lists are reviewed by Sales Directors at the end of each half-year. Changes take effect on 1 August and 1 February. RevOps publishes the updated account assignment in Salesforce one week in advance.
